

Mobile Content Alliance

August 30, 2006

Finland based mobile content producer has opened business in the Far East. The first revenue share based contract was signed with Thailand's leading independent Value Added Service Provider (VASP).

On the initial stage, the types of mobile content available are:

- Video MMS messages
- Video Content for streaming
- Animated Gif files for MMS
- Wallpapers, both graphic and photographic

The company is also aiming to launch tailored video content and introduce new market mechanism to distribute the products.
